CONSULTING & DESIGN • PRODUCTS SUPPLY • INSTALLATION • SERVICE

Our technicians know the laws and regulations currently in force, and can assess the details and issues of various projects, recommending made-to-measure solutions. Mondo has been designing and installing sports facilities for 60 years.

Mondo having full control of the production of each components can guarantee complete quality and can meet the Federations standards in an easier way.

Mondo works with managers and operators of sports facilities so that the installation will be perfectly integrated with its operational environment.

Mondo does more than simply provide after sales advice on its products. Tell us about the problems you have experienced with other supplies and we can recommend the right Mondo product to solve the problem.

FLOORING SYSTEM

FAST BREAK SYSTEM 2

The product complies with the international FIBA norms.

UPPER LAYER

Solid beech wood 4 mm thick.

MIDDLE LAYER

Plywood (24 mm) with the mechanised tongue and groove system.
