

Running on the right track

 **MONDO**

Profile

We walked a long way

Created in 1948 by the intuition of Edmondo Stroppiana, Mondo has always been a family owned company. In just a few decades, thanks to investments and our commitment to quality we have become an international company, selling our products in 196 countries worldwide, from Europe, to America, to China. Mondo operates in three main areas:

Sport and Flooring, Playing balls and toys, customized Motor-yachts. Renowned for its athletics tracks, Mondo is Official Supplier of the Olympic Games since 1976. Our product range has grown to include sport indoor and outdoor surfaces and equipment, sport turf, contract and transport flooring, landscape grass. Step by step, we have reached very far. Ready for another leap forward.

Philosophy

Following our values

Experience

Our numbers speak on their own: 60 years of experience and presence, 1500 employees in 30 production and commercial units, 156 registered trademarks, more than 200 patents pending, 30 years being the Official Supplier of Olympic Games, over 200 world records broken on our tracks.

Innovation

We constantly focus on the future, developing unique, innovative and technically advanced products. Every year Mondo invests 6% of its profits giving the light to new products and solutions guaranteeing the highest performances. Our R&D centers work closely together with world most renowned laboratories, environmental experts and organizations.

to there...

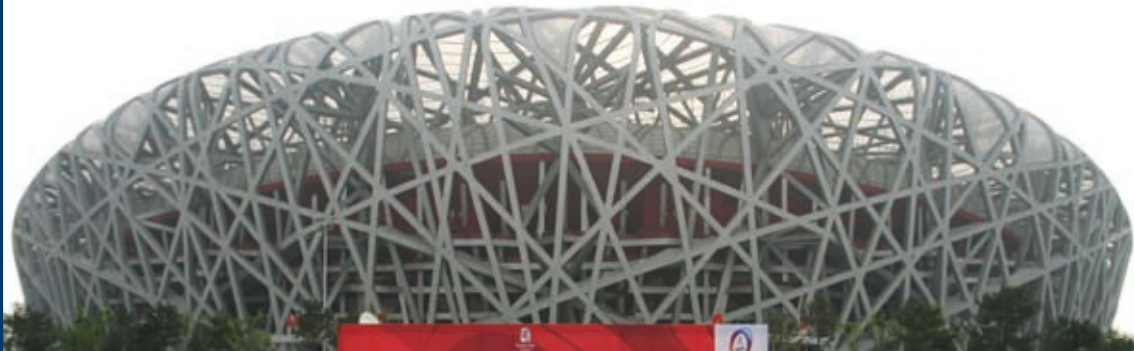

Customer

Clients are kings. Our team of highly qualified experts can meet clients' needs by supplying turn-key projects for the construction of sports structures. We cover from soccer pitches and athletics tracks to sports halls and arenas, from planning and design to the production and installation of floorings.

Environment

We love nature. That is why our floorings are environmentally safe throughout their life-cycle, from production to storage, from installation to disposal. Our aim is to drastically reduce environmental impact and, where possible, eliminate the use of dangerous chemicals. We search for sustainable solutions in collaborations with environmental experts and organizations.

Communication

Now with a new style and outfit

A new visual identity.

Many messages, one clear voice.

Mondo's world is deeply structured with different branches and business units, playing in different international and commercial contexts.

We have now traced new guidelines for our corporate identity, visual and verbal, constantly working for a more consistent image.

A new website for a global strategy.

There is a place where Mondo's marketing activities can develop free from constriction, where we can pick up opportunities in real time, keep in contact, share news, know about new products and stick to the new company projects. The future of Mondo is on-line. We have a new site, more clear, friendly and user oriented. Let us meet there.

DESIGN.BUILD.

A dedicated team of experts at your service for the design and construction of sport facilities: 3 research and development laboratories, 40 architects and engineers, 200 technicians, 100 specialized installers worldwide, 2500 dealers and authorized re-sellers. We provide step by step consultancy, analysis, design, project management, production, installation, and maintenance.

TRACK&FIELD.

We are famous for our surfaces and for the fastest, most durable and environmentally safest track available. That is why we have been Official Supplier of the Olympic Games since 1976, for 9 times consecutively. To date, more than 230 world records have been set on our track; we are official sponsor to IAAF and many other track and field organizations. Our tracks are installed at more than 1100 venues globally. Mondo also offers a wide range of track & field equipments.

SPORT.TURF.

Thanks to the commitment of our Research Center, we developed Mondoturf FTS 3, an innovative system featuring a new generation of fibers, the Ecofill Star infill and the Fine Tuned underlayment. Mondoturf has the same aspect as the finest natural grass field, remarkable performance levels and safe for the environment.

INDOOR.SPORT.

We are the all-around indoor sport supplier. Mondo designs, produces and installs basketballs, volleyball, handball, futsal and multipurpose equipment and floorings. Our solutions are durable, versatile, easy to assemble and maintain. Our solutions guarantee safety, performance and full-play satisfaction.

SPORT.EQUIPMENT.

More than flooring. We provide every kind of sport equipment, video screens, electronic scoreboards and seating for stadiums, arenas and sport facilities. Designed, engineered and manufactured in Mondo's production center in Zaragoza, Spain.

LANDSCAPE.GRASS.

There is nothing like walking bare-foot on the grass, our landscape grass. Mondo's long research in sport turf allowed us to develop excellent quality products also suitable for landscaping. Our solutions not only reproduce all characteristics of natural grass, but have the same durability qualities of the best sport turf, color and technical characteristics.

TRANSPORT.FLOORING.

Millions of passengers travel daily with Mondo in every part of the world. From Paris to Brussels, Tokyo, New York and Singapore. Our floorings are everywhere, on high speed trains, subways and buses, on decks, walkways and aboard cruise ships. Our solutions have distinctive design and features to meet the high performance requirements and standards of the transportation market.

CONTRACT.FLOORING.

A solution for every environment. We provide surfaces for education, healthcare and commercial facilities. Our aim is to develop rubber and vinyl flooring that, through color and design, can contribute towards improving the quality of environment, especially public spaces. Mondo's contract surfaces are technologically advanced and purposely designed to satisfy the requirements of specific areas of use while reducing the costs of the product lifecycle.
