

FAST BREAK SYSTEM Futsal

FIFA QUALITY
Futsal Program

Designed for Futsal

Designed in collaboration with UEFA, the Fast Break System Futsal is a portable area elastic wood flooring system, ideal for high-level competitions, certified as FIFA QUALITY FUTSAL COURT

PRODUCT DESCRIPTION

FAST BREAK SYSTEM Futsal is a removable area-elastic sport flooring provided in a **total thickness of 40 mm ($\pm 5\%$)** and composed of patented detachable panels combined modularly with an elastic mat sublayer as described hereunder:

1. Load-bearing modular panels of phenolic multilayer plywood of 21 mm thickness provided with a lacquered and painted finish in solid color which guarantees optimal grip, speed, ball control and shot precision. The patented interlocking system, which incorporates only one closeable metal handle on the long side of the panels and steel alignment profiles on the short side, allows particularly simple and rapid assembly/disassembly, without the need of specific tools. No plastic element is present in the flooring system.

The full panel size of 741 x 1480 x 21 mm (or 800 x 1212 x 21mm) and half panel size of 741 x 740 x 21 mm (or 800 x 606 x 21 mm) make it possible to realize two-tone pitches also for high-level competitions, creating color combinations from a wide range of colors.

The panels located along the perimeter are equipped with reinforced interconnections and they're shaped with a sloping edge that can be customized by colors and logos.

The modular panels are supplied in metal cages (which can be disassembled), in order to protect the floor and facilitate the transportation and storage operations.

2. Expanded flexible polyurethane foam which allows an excellent comfort, shock absorption and a homogeneous contact with the subfloor, provided in sheets of 19 mm thickness and size of 1000 x 2000 mm.

This product complies with the European Standard **EN 14904**, it's certified **FIFA QUALITY Programme for Futsal Surfaces (FIFA Report n 114424)** and it's been used as official floor for the final phase of at least ten FIFA and UEFA top-level futsal competitions.

This product has been designed and manufactured according to UNI EN ISO 9001 certification supplied by an **ISO 50001, ISO 9001:2015 and ISO 14001:2015** certified company.

FAST BREAK SYSTEM Futsal (40mm total thickness)

Technical Data

GENERAL PROPERTIES	TEST METHODS	UNIT OF MEASURE	REQUIREMENTS	AVERAGE VALUES
Total Thickness	UNI EN ISO 24346	mm	-	40
Mass per unit area	UNI EN ISO 23997	g/m ²	-	16500
SAFETY IN USE PROPERTIES				
Slip Resistance	EN 13036-4	-	80 - 110	105
Shock Absorption	EN 14808	%	25 - 75	51
Vertical Deformation	EN 14809	mm	≤ 5	1,9
TECHNCIAL PROPERTIES				
Vertical ball behavior	EN 12235	%	≥ 90	97
Resistance to a rolling load – 1500N	EN 1569	mm	≤ 0,5	in conformity
Resistance to wear	EN ISO 5470-1 (CS10 wheels, 500g, 1000 cycles)	mg	≤ 80	In conformity
Formaldehyde emission	EN 717-1	class	E1/E2	E1
Content of Pentachlorophenol	EN 12673	%	≤ 0,1	absent
Specula gloss	EN ISO 2813	%	≤45	in conformity
Resistance to indentation	EN 1516	mm	≤ 0,5	0,1
Resistance to impact	EN 1517	mm	≤ 0,5	in conformity
OPTIONAL PROPERTIES				
Dimensional stability	EN ISO 23999	%	-	no appreciable variation

Quick to assemble, easy to customize

Easy and fast to mount/dismount thanks to the interlocking system by foldable handles.

The interlocking system by foldable handles facilitates the storage and the logistics.

GENERAL DIMENSIONS

Double-color FUTSAL STANDARD SIZE pitch

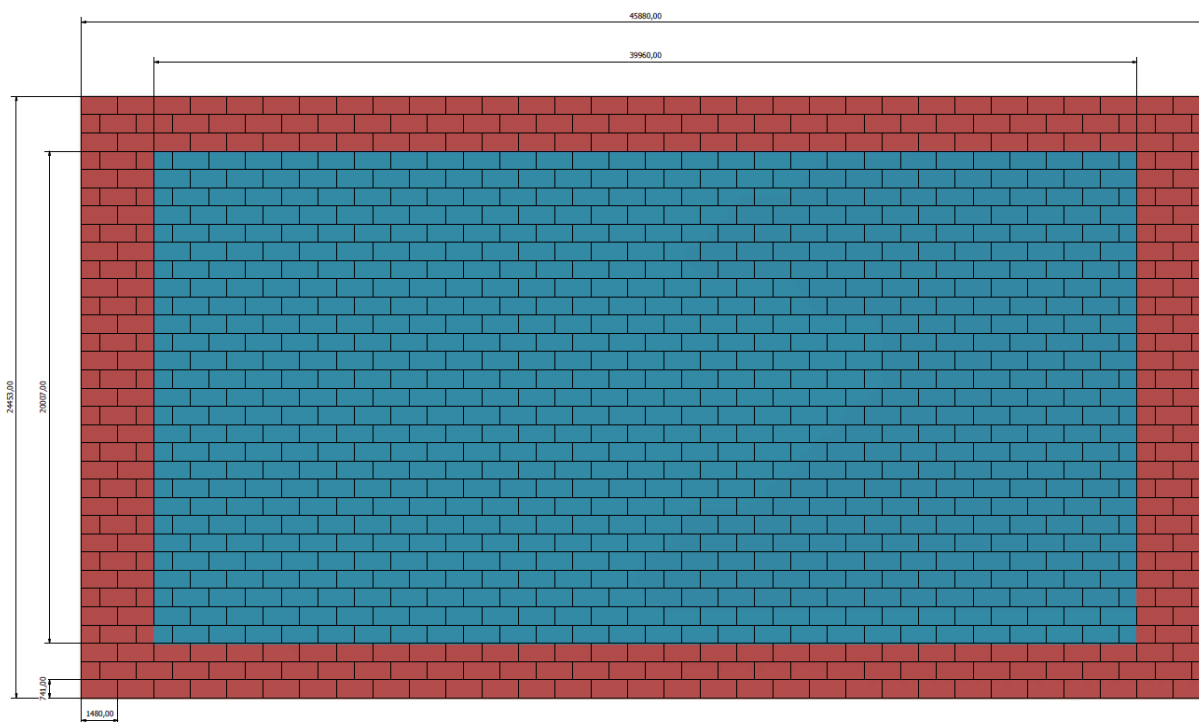

- Dimensions 44,40 x 24,453 m = 1.085,71m²
- Half panels of 740 x 741 mm: 32 units./ Panels of 1480 x 741 mm: 974 units.
- Metal cages for transportation and storage: 17 units

Double-color FUTSAL MAXI SIZE pitch

(UEFA Futsal EURO Finals/ UEFA Futsal Champions League Finals 2019-2023, FIFA WORLD CUP 2021 and 2024)

- Dimensions 45,88 x 24,453 m = 1.121,90 m²
- Half panels of 740 x 741 mm: 32 units./ Panels of 1480 x 741 mm: 1.007 units.
- Metal cages for transportation and storage: 17 units

Possibilities of customized colors and dimensions
