

RAMFLEX INLAID MARKINGS THICKNESS: 10MM

Ramflex is a double-layered vulcanized rubber flooring with a hammered surface finish. The surface allows athletes to define the training area directly on the flooring, and because the inlays are created by water jet, tile markings are made with a single material, ensuring the entire surface's elastic response remains uniform over time.

CERTIFICATIONS

- Low VOC (Volatile Organic Compounds) emission
- GREENGUARD & GREENGUARD Gold (UL)
- Class A+ (French scope 2011-321)
- REACH compliant
- UNI EN ISO 9001
- CE marked (EN 14041)
- Fire EUROCLASS Cfl-S2
- Thickness: 10mm
- Tile size: 91.5 x 91.5 cm
- Weight: 13.5 kg/m²

RAMFLEX INLAID MARKINGS THICKNESS: 10MM

PERFORMANCE & SAFETY

- Optimal combination of resistance and shock absorption thanks to its double-layered construction
- The product withstands wear from weights and light abrasions thanks to its 2 millimeter-thick rubber surface
- Perfect dimensional stability thanks to the combination of the surface layer and shock-absorbing underlayer
- Easy maintenance - non-porous
- Anti-slip: grants the perfect grip for every workout (even barefoot)
