

# RUBBER SPORT FLOORINGS

## MONDOARMOR

MondoArmor 6mm is double-layered vulcanized rubber sport flooring with embossed surface. Combined on site with Basleast EX 12mm we will have MondoArmor Strength which provides the perfect support for the most intense strength and conditioning training involving heavy weights. The top layers are bonded onto a 12 mm high impact absorbing bottom layer in vulcanized rubber consisting of an elongated honeycomb-shaped geometric construction, deformable in three dimensions, that provides the optimum blend of cushioning.

# RUBBER SPORT FLOORINGS: THE ADVANTAGES

## UNVARIED AND STEADY PERFORMANCES

Best physical-mechanical behaviors even in case of temperature variations

## DURABLE UNDER INTENSIVE USE

No welded joints  
Ease of maintenance over the years

## GREEN FACTS' AND CERTIFICATIONS

- REACH Compliant
- Non Hazardous Waste according to the E.W.C
- Low VOC (Volatile Organic Compounds) emission
- Class A+ (French scope 2011-321)
- GREENGUARD & GREENGUARD Gold (UL)
- The Rubber Range Environmental Product Declarations (EPD) for Life Cycle Analysis show the products have 19% less impact on the environment than similar PVC products
- Fire EUROCLASS (EN 13501)
- CE marked product (EN 14041 / EN 14094 incl DoP)
- UNI EN ISO 9001

## LOW VOC EMISSIONS

Better air quality means better performances for athletes

WE INNOVATE.YOU WIN

# GREENGUARD GOLD CERTIFICATION

Air pollution can have a negative effect on athletes' performance and put their health at risk. During training and competition, athletes breathe 20 times more than they would normally. This means that they are 20 times more exposed to pollution risks. That is why mondo has been striving for years to achieve low VOC emissions and have that confirmed by independent external laboratories, such as UL Environment, which has given our surfaces GREENGUARD GOLD Certification, or by accredited laboratories, which have awarded them class A+ according to the French Decree.
