

WOOD SYSTEMS

ZETA SYSTEM FTS

The Zeta System FTS flooring system features a wood surface with an FTS shock-absorbing underlayment to consistently provide the perfect balance of energy return, shock absorption, and vertical deformation.

THE IDEAL SOLUTION FOR STRUCTURES WITH
UNDERFLOOR HEATING

MAXIMUM UNIFORMITY AND
STRENGTH

- Supports the **WEIGHT** of mobile baskets and stands
- **EXCELLENT FOR SPORTS WITH SKATES**

FINE TUNED SYSTEM®:

Patented precast elastic sub-base
**PERFECT SOLUTION EVEN IN CASE
OF UNDERFLOOR HEATING**

Thanks to the elastic Fine Tuned System sub-base, the shock absorption remains uniform and constant over time.
