

# RUBBER SPORT FLOORINGS

## MONDOFLEX RANGE

MONDOFLEX 2,5 – 3,0mm

MONDOFLEX 2,5 – 3,0mm + EVERLAY® A 1,2mm

MONDOFLEX II 7,5mm (+ EVERLAY® A 1,2 mm)

MONDOFLEX 2,5 – 3,0mm +  
EVERLAY® PROTECTION 4,7mm

MONDOFLEX 2,5 –  
3,0mm + EVERLAY® HIGH  
PROTECTION 7,5 mm

The Mondoflex range is  
perfect for multisport gyms  
with intensive use

# EVERLAY<sup>®</sup>: MOISTURE PROOFING SHOCK ABSORPTION BOOSTER

Patented fiberglass underlay

## EASY LAYING

Everlay shortens installation time by eliminating delays caused by the drying time of the floor foundation

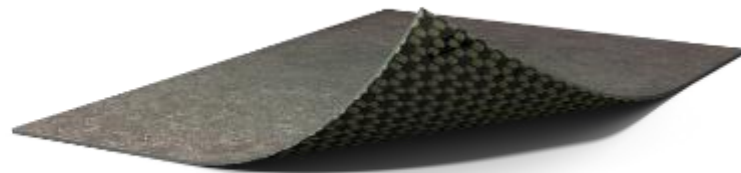

## PERFECT SOLUTION IN CASE OF FLOOR HEATING

It does not act as thermal barrier

## LOW VOC EMISSIONS

## REACH Compliant

Non Hazardous Waste according to the E.W.C

EVERLAY<sup>®</sup> A

Compatible with MONDOFLEX II and MONDOFLEX: moisture-proofing with minimum thickness.

EVERLAY<sup>®</sup> PROTECTION

In combination with MONDOFLEX 2,5 mm

EVERLAY<sup>®</sup> HIGH PROTECTION

In combination with MONDOFLEX 2,5 mm

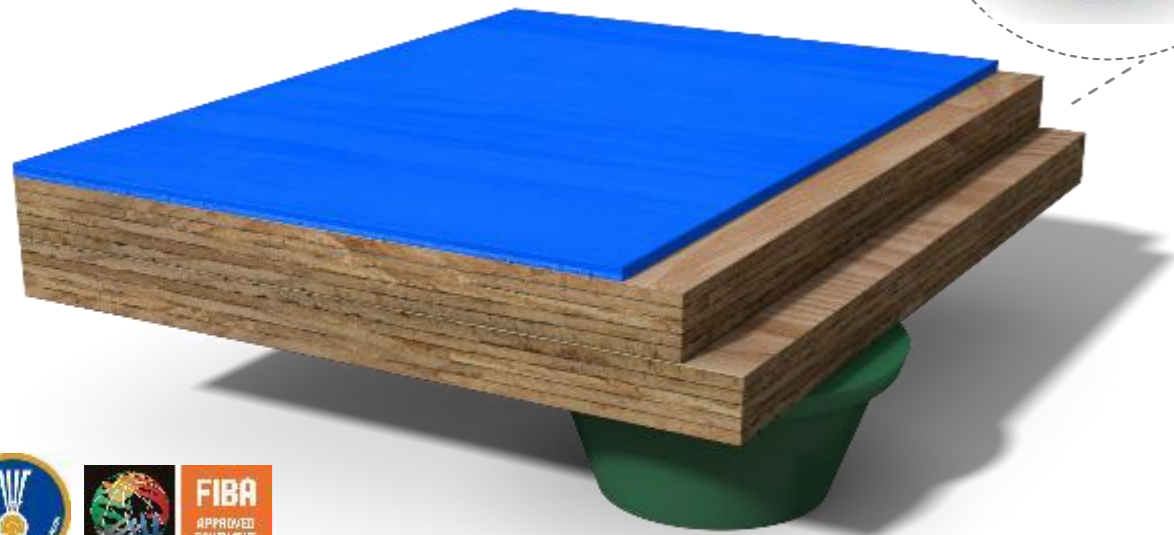

WE INNOVATE.YOU WIN

# RUBBER SPORT FLOORINGS: COMBINED SYSTEMS

Elastiflex

## AIR CELL PADS

Patented cushioning pads

## RUBBER ON TOP, RUBBER BENEATH

Mondoflex finish with the advantages of Rubber Air Cell® Pads

## DURABLE FINISH HOLDS UP UNDER INTENSE USE

When energy is given, power is returned. This guarantees an unparalleled balance of energy return, shock absorption and uniformity.

Premier Plus Mondoflex

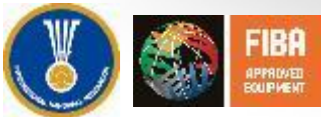

## FLEXIBLE EXPANDED POLYURETHANE BASE

The underlayment provides excellent comfort, uniform shock absorption and a completely uniform response across the entire surface.

Highly shock-absorbent multisport flooring with a Mondoflex surface

IDEAL FOR HANDBALL, BASKETBALL, FUTSAL, SCHOLASTIC AND MULTIPURPOSE INSTALLATIONS

# RUBBER SPORT FLOORINGS: THE ADVANTAGES

## UNVARIED AND STEADY PERFORMANCES

Best physical-mechanical behaviors even in case of temperature variations

## DURABLE UNDER INTENSIVE USE

No welded joints  
Ease of maintenance over the years

## GREEN FACTS' AND CERTIFICATIONS

- REACH Compliant
- Non Hazardous Waste according to the E.W.C
- Low VOC (Volatile Organic Compounds) emission
- Class A+ (French scope 2011-321)
- GREENGUARD & GREENGUARD Gold (UL)
- The Rubber Range Environmental Product Declarations (EPD) for Life Cycle Analysis show the products have 19% less impact on the environment than similar PVC products
- Fire EUROCLASS (EN 13501)
- CE marked product (EN 14041 / EN 14094 incl DoP)
- UNI EN ISO 9001

## LOW VOC EMISSIONS

Better air quality means better performances for athletes

WE INNOVATE.YOU WIN

# GREENGUARD GOLD CERTIFICATION

Air pollution can have a negative effect on athletes' performance and put their health at risk. During training and competition, athletes breathe 20 times more than they would normally. This means that they are 20 times more exposed to pollution risks. That is why mondo has been striving for years to achieve low VOC emissions and have that confirmed by independent external laboratories, such as UL Environment, which has given our surfaces GREENGUARD GOLD Certification, or by accredited laboratories, which have awarded them class A+ according to the French Decree.
