

MONDOFLEX II 7,5 MM

Prefabricated indoor sport flooring in rolls consisting of three layers joint together in a constant thickness of 7,5 mm. The two upper layers (2,5mm) are made of embossed and vulcanized rubber with mineral charges, stabilizers and color pigments. The 1st layer (1mm) gives the surface properties, and is smooth, anti-slippery, antireflective and marmorized. It is vulcanized onto the 2nd rubber layer (1,5mm), used to give the right stiffness and the distribution of loads. The lower layer (5mm) is made of expanded polyurethane foam, modulated to ensure technical requirements such as resistance to impact, energy absorption, elasticity, slip resistance and acoustic absorption.

Non porous rubber surface provides ease of maintenance and antibacterial protection against MRSA and odors. The use of rubber brings specific advantages in front of other materials, like no need of weld rods for installation and a superior

protection against intensive use.

The product has been certified in compliance with International schemes and standards for Indoor Air Quality programs (VOC, Volatile Organic Compounds emissions) like Greenguard and Greenguard Gold (UL Certification Program).

This product is ideal for a multisport indoor hall where different indoor sport competitions are held, such of basketball, handball, volleyball, badminton or futsal.

STANDARDS

This product has been certified to be in compliance with European Standards EN 14904 ("Surfaces for sports areas - Multi-sports floor systems for indoor use", Shock absorption $\geq 25\%$, Class P1) including Declaration Of Performance (DoP, CE marking) and it is rated Euroclass Cfl-s1 in accordance with EN 13501.

This product has been rated "Non Hazardous" by external laboratory in accordance with the European Waste Catalogue. This means that it does not present a subrisk to public health or cause adverse effects on the environment.

This product has been certified in compliance with the following schemes and standards for Indoor Air Quality programs (VOC, Volatile Organic Compounds emissions):

- Greenguard and Greenguard Gold (UL Certification Program).
- French scope (2011-321): Class A+.
- Italian regulation CAM (Minimum Environmental Criteria) following D.M. 11/01/2017.

This article is produced in compliance with the European Regulation REACH (Registration, Evaluation, Authorization and Restriction of Chemicals).

This product is designed and manufactured according to UNI EN ISO 9001 certification.
