

High Jump Landing Area Spike Resistant Top Pad

AA502 - AA503 - AA504 - AA505 - AA506 - AA507 - AA509 - AA508 - AA510

Spike resistant top pad made of super soft polyurethane foam, which confers uniformity to the surface and absorbs the impact of the athlete. It is finished with high-performance technical material to ensure protection against the effects of spikes. The high frequency thermal-bonding process guarantees high bonding strength.
