

Set of two goal racks for transport

PB070

Set of two racks to transport handball/futsal goals. Each set contains two units. They are made of steel with a support base for the rear bars. Each rack must be placed at the extremity of the goal.

Each rack has 4 swivel wheels 60 mm. in diameter with a rubber strip (to protect the floor of the sports centre) that permit the easy transport of the product to the desired place.

All steel screws have been zinced.

The product is painted with polyester powder paint, which is applied after a degreasing treatment using a pressurized phosphate bath and cured in an oven at 200°C.

Standard colour: white.
