

# MONDOWALK

MADE FOR WALKWAYS.

**BORN OF MONDO'S EXPERIENCE AND NIKE'S COMMITMENT, MONDOWALK WAS DESIGNED TO BE A COMFORTABLE, HIGH-PERFORMANCE RUNNING SURFACE. IT REDUCES IMPACT AND IS HIGHLY STABLE, IMPROVING BALANCE AND TRACTION WITH LESS ENERGY LOSS.**

#### **EMBOSSED SOLID-RUBBER TOP LAYER**

Vulcanized rubber surface layer with raised embossing for optimal elasticity and grip, and efficient drainage.

#### **CO-VULCANIZED MULTI-LAYER DUAL DUROMETER**

Our sport surfaces are made with two layers of solid rubber vulcanized together to form a continuous, seamless surface.

#### **AIR-CELL TECHNOLOGY**

Air-filled chambers on the bottom layer compress, then expand, acting like bowstrings and projecting athletes up and forward.

#### **NIKE GRIND**

Nike Grind vulcanized rubber granule, made from the soles of pre-consumer Nike running shoes. The soles of Nike running shoes are mechanically pressed into the ideal form and granulometry so as to be used in MONDO surfaces and performance infills.

## MONDOWALK

### BEST COMPROMISE BETWEEN ASPHALT AND GRASS

Generally, dirt tracks are soft and low impact, uneven, and often dirty and slippery. Asphalt is smoother and cleaner, but can cause greater impact on joints and muscles. MondoWalk combines the best of both surfaces with excellent shock absorption and energy return, uniform dynamic response and easy maintenance. It's the ideal track for anyone walking for fun or training.

### A "GREEN" COMPOSITION

MondoWalk with Nike Grind contains no chemicals that are potentially dangerous to your health or the environment, like organobromine compounds, per- and poly-fluorinated or phthalates. It contains no chemicals known to be persistent, bio-accumulative or toxic (PBT), carcinogenic, mutagenic or reprotoxic (CMR), or any chemicals included in the list of substances of very high concern (SVHC) by the European Chemicals Agency (ECHA). That's why it is GREENGUARD Gold Certified.
