MONDOHOCKEY ELITE EL

On a hockey field, the ball should be able to move fast. With Mondohockey Elite, MONDO has designed a system for hockey that is played at the highest level, no matter the condition.

MONDOHOCKEY ELITE: HOCKEY FIELD OF CHAMPIONS.

Mondohockey ELITE is a MONDO artificial turf system designed for professional hockey. The turf, created in triple-ribbed asymmetrical texturized monofilaments, does not require technical infill and may be used even when wet. The elastic, shock-absorbing underlayment, which is cast on site during installation, provides ideal shock absorption and energy return for the rotational movements the sport requires.

MONDOHOCKEY ELITE EL

Filaments Type: texturized monofilaments with a semi-concave section and three asymmetrical ribs

Pile height: 12 mm
Yarn Ditex:11,375 Dtex
Infill: Non filled / Wet surface

Elastic Carpet: In-situ elastic layer EL 15mm
Shockpad composition:
Thickness: 15 mm
