

MF CLASSIC

LONG LASTING PERFORMANCE.

MONDO PROFESSIONAL GRADE ARTIFICIAL TURF SYSTEM COMBINES 4NX MONOFILAMENT FIBER AND SBR TECHNICAL INFILL.

MONOFIBRE 4NX

Monofilamento de polietileno especial con estructura semi-cónica de tres nervios asimétricos y espesor de 400 micras.

SOPORTE BASE CON AGENTE DE IMPREGNACIÓN DE POLIURETANO

En el proceso productivo de las superficies Mondoturf, los filamentos se tejen sobre soportes de polipropileno de doble capa y se fijan gracias a la aplicación de poliuretano.

MF CLASSIC

Mondo continues to break new ground with its' innovative systems designed for American Football. Our research and development team has engineered systems to accurately mimic natural grass. Our unique systems incorporate alternative infills and elastic pads that insure a more uniform and stable field that reduces injuries and guarantees consistent Gmax over the life of the field.

MONOFIBRE 4NX: DESIGNED TO LAST

Maintaining the sports function over time of a synthetic grass playing field means ensuring the characteristics of the ball-surface interaction and reducing the risk of injuries. This is why Mondo designed 4NX, a monofilament that combines the exclusive shape with a greater thickness, for a greater elastic memory capacity. The tufts of grass quickly return to their original position after the pressure of the foot, and remain in an upright position at the passage of the ball, maintaining longer rolling and rebound times of the field.
